UPDATES

- **Goodbye Winter 2011.** Spring will arrive on Monday, March 20th at 6:21pm CDT.
- **March 19th**—the moon will be closer to the earth than it has been at any time in the last 19 years.
- The “Super Moon” has some worried about the possibility of a natural disaster, while others predict good luck and are buying up lottery tickets.

- **Spillway Repair**—The project is currently out for bid. Bids will be opened on Tuesday, March 29th, 10:00am at City Hall. If you are interested in obtaining bid documents contact Burns & McDonnell in O’Fallon.

Crews making emergency repair last fall. Permanent spillway wall repairs will be made soon.

- **Broadway Sidewalk Extension**—The plans for this project are nearly complete. We plan to have the bid documents available in the next month. It is hoped that the project which will extend sidewalk along the south side of Broadway from Sunrise Court to Iberg Road will be completed by early summer.
- **Troxler Avenue Repair**—This project is also nearly ready to go to bid. The plan is to have the bidding process complete by the time school dismisses for the summer so that the installation of rebar at the joint and diamond grinding the pavement surface will be completed before school begins in the fall.
- **Water and Sewer Department** employees continue to work along **12th Street** to tie in individual service lines to a 10” water main.

W & S crews work to make new service line connections .

- The **Water Reclamation Facility** has begun the process of **upgrading their influent meter** from an 8” meter to a 12” meter. This will help increase capacity at the plant and help in planning for future residential and industrial growth. The W&S division has been helping the WRF with this project.
- All that remains in order for the **Koepfli Lane Extension** and the **Iberg Road Realignment** projects are a few “punch list” items. Weather permitting, both projects should be completely wrapped up by the beginning of summer.
